# ARC

## App Race Control (ARC)

Scalextric ARC is a Race control system that operates using App-based software in conjunction with BLE (Bluetooth® low energy/Bluetooth SMART) technology.

Scalextric ARC is a 'plug-in' to our current track system -compatible with existing analogue and digital tracks and cars.

Allows the user to wirelessly manage all elements of the 'Scalextric race experience' using Bluetooth technology via an App on a Smart Device.

3 new powerbases are available as separate accessory packs (ARC ONE, ARC AIR, ARC PRO), with differing levels of functionality.

scalextric.com

### ARCONE

#### Entry level ARC Race control system

- Hard wired hand controllers
- Core app functionality
- Analogue system
- 2-car racing

#### KEY FEATURES:

- Pit stops
- Post-race statistics

### ARCAIR

#### Mid-range ARC Race control system

- 2.4 Ghz wireless hand controllers
- Intermediate app functionality
- Analogue system
- 2-car racing

#### KEY FEATURES:

#### Features of ARC ONE plus...

- Wireless controllers (plus rumble)
- Variable race conditions
- Braking button

### ARCPRO

#### Premium ARC Race control system

- 2.4 Ghz wireless rumble hand controllers (11 rumble patterns)
- Advanced app functionality
- Digital system
- Multiple car racing (up to 6)

#### KEY FEATURES:

#### Features of ARC ONE and ARC AIR plus...

- Multiple cars
- KERS boost
- Lane Changing

\*Wireless rumble controller compatible with ARC AIR and ARC PRO only.

# WHAT'S NEW FOR 2018

Welcome to the Scalextric car collection that will be going on sale between January and June 2018.

We hope you like the new cars that have been meticulously researched, designed and developed by the Scalextric team, for your collecting and / or playing pleasure.

A new, exciting item within the collection is the triple pack that commemorates the 50 years since Gulf won at LeMans. A collection of absolutely legendary racing cars, beautifully presented in their own display case.

We hope you enjoy!

## FORD GT40 GULF TRIPLE PACK (C3896A)

1968 saw Ford continue their successful attempts at the world's greatest endurance race. 2018 marks 50 years of Fords third win on the bounce, and the first for a car sponsored by Gulf Oil. Who's famous blue and orange colours would soon become as synonymous with motorsport as the race itself. Despite two of the three entered cars failing to finish the winning machine of Rodriguez and Bianchi triumphed by a number of laps over the second and third place Porsches, with the race proving to be one of attrition with only sixteen classified finishers.

This set combines all three of the Gulf entered cars, as a perfect way to commemorate the first win at LeMans for both Gulf and the Ford GT40 MKI with the MKIV Ford and the MKII being victorious in both 1967 and 1966 respectively.

For more information see  
Page 29 for the Ford GT 40 Gulf Triple  
Pack (C38996A)  
and Page 40 for the Mercedes-AMG  
GT3 solo (C3942).

## MERCEDES-AMG GT3 CAR (C3942)

No stranger to the British GT Championship, Martin Short returned to the series in 2016 with a BMW Z4 GT3, but for 2017, along with car owner Richard Neary, he debuted this fantastic chromed Mercedes-AMG GT3. Some bad fortune in the opening rounds dented the team's championship hopes, but there can be no doubt that the car was amongst the most striking on the grid, and probably the best sounding, powered by the mighty V8 engine.

### BMW 1 SERIES 125I NGTC (C3914)

One of the most popular drivers in the BTCC Andrew Jordan also has the bonus of driving one of the best looking and most recognisable cars. The chrome Pirtek liveried BMW Series 1 of the West Surrey Racing Team is often found at the front of the pack with Andrew scoring a number of wins in 2017, one such victory coming at the open meeting of the season at Brands Hatch. The 2013 champion Andrew has ended the 2017 campaign strongly and we are sure 2018 will see him at the front of the pack once more in yet another strikingly liveried car.

For more information see  
Page 10 for the Jaguar E-Type 1963 International Trophy Twin Pack (C3898A)  
and Page 20 for the BMW 1 Series 125i NGTC solo car (C3914).

### JAGUAR E-TYPE 1963 INTERNATIONAL TROPHY TWIN PACK (C3898A)

The 1963 Sussex Trophy saw one of the most iconic titanic GT battles ever to occur at Goodwood during its heyday in the early 1960s. The race pitted some of the most beautiful and desirable cars ever produced against one another in a pitched 15 lap battle to the chequered flag. Representing the prancing horse was Mike Parkes driving a Ferrari 250GTO, lining up against the lightweight E-Types of Graham Hill and Roy Salvadori. In front of packed grandstands, the big GT +2.5 class cars screamed into battle. The two E-Types fought hard with the 250 GTO, with the cars never more than a few lengths apart even as they cut through the slower class runners.

Ultimately, it was Graham Hill who claimed victory, taking the chequered flag and racking up another victory at the circuit where he would win for both Ferrari and Jaguar in the same year. Mike Parkes took second, with the other lightweight E-Type claiming third. The 1st and 3rd finishes were a huge achievement for the E-Type, with the Ferrari beginning the races as favourite, having been a class winner at the Le Mans 24 Hour race. However, here it was beaten by the best GT Sports car Britain had. The E-Type in racing trim was, and still is, both stunningly beautiful and stunningly fast.

# LEGENDS

## LIMITED EDITION COLLECTION

Recreate some truly historic races with the Legends Collection of limited edition Scalextric models, featuring highly detailed, collectible slot cars from the golden era of motorsport.

Check out our carefully curated Legends collection for Spring / Summer 2018, each one is beautifully presented in its own display case.

Look out for more to come in Autumn / Winter 2018!

# TRACK EXTENSION PACKS

## ULTIMATE TRACK EXTENSION PACK

C8514

2 x 350mm C8205 straights, 4 x 350mm side swipes, 1 x leap ramps, 2 x hairpin curves, Borders & barriers.

Extending your Scalextric layout has never been easier. The seven Scalextric Track Extension Packs are totally flexible in their design. Any of these packs can be added to Standard or Digital Scalextric circuits.

Each pack can be incorporated into a Scalextric circuit, from simple ovals and figure-of-eight tracks to the largest layouts. One or more Track Extension Packs can be added to the same circuit. You could use all the Track Extension Packs to make a hugely impressive circuit incorporating all the featured track pieces. The reverse side of the packaging explains how the Track Extension Pack can be incorporated into any number of layouts.

Hairpin Curve

Leap Ramp

Side Swipe

# TRACK EXTENSION PACKS & ACCESSORIES

## CONTROL TOWER

C8319

Self-assembly, Push fit parts. Width 175mm.

Manufactured and distributed by Hornby Hobbies Ltd. with kind consent of L'Aventure Peugeot.

## Scalextric Helpline

Email: [customercare@scalextric.com](mailto:customercare@scalextric.com)  
Telephone: +44 (0) 1843 233525  
Spare parts: Spare parts for current products may be available from Scalextric Service Dealers.

## Electrical

Scalextric vehicles are fitted with electric motors operating from between 3-15 volts direct current. Mains electricity supply is reduced to this safe voltage by the appropriate Scalextric transformer and speed control is achieved by hand throttles wired to the track powerbase. Vehicles have pick-ups beneath the chassis which collect the electrical power from the track. Some control equipment is not suitable for use by children under 14 years except under adult supervision. Please check individual product packs for further information.

## New releases

This catalogue shows items planned for introduction in 2017. Delivery periods may be subject to variation without notice. The illustrations of such items may not conform exactly to production versions. Where a photographic image of a real car is used, the body shape and /or livery of the production SCALEXTRIC model may differ to the car pictured.

## Distribution

SCALEXTRIC products shown in this catalogue are available only through authorised retailers. The range shown will be varied in future years. Enthusiasts and collectors are invited to obtain their requirements whilst the item is in current production as additional production runs are not guaranteed. If you need assistance in obtaining any SCALEXTRIC product, please contact the SCALEXTRIC Helpline.

## Dimensions

Sizes quoted in the catalogue are approximate. Hornby Hobbies Ltd reserves the right to alter designs, specifications, colours, liveries and prices without notice. This catalogue supercedes all previous editions.

## Trademarks

SCALEXTRIC, SCALEXTRIC DIGITAL, SCALEXTRIC START, SCALEXTRIC SPORT, SCALEXTRIC SPORT DIGITAL, SCALEXTRIC SPORTWORLD, MY FIRST SCALEXTRIC, MICRO SCALEXTRIC, SCALEX, SCALEXTRIC SUPERSCALE, SUPERSLOT are Trade Marks of Hornby Hobbies Limited.
